LETS THE CAT OUT O' THE BAG

The Buckman bill a covert and successful attempt of the Lake City University to assassinate the other State schools.

The people of Lake City owe a debt of gratitude to Senators Gillen and Adams for the successful fight they made for the University which they can never repay—Lake City Index.

So that's the milk in the cocoanut, is it? We are glad that even at this late hour our esteemed Lake City contemporary has let the cat out of the Buckman bill bag, and brought forth the nigger from the Buckman bill woodpile. So when Senators Adams and Gillen were battling so royally for the Buckman bill, they were battling for the Lake City University, eh? And so it is admitted that at the bottom the Buckman bill was a scheme of the Lake City University to murder the other schools of the State, with which it found itself unable to compete, eh? In battling for the Buckman bill Senators Adams and Gillen were working for the Lake City University, and by their success in assassinating the other schools of the State, they have laid the people of Lake City under "a debt of gratitude they can never repay," eh? Why didn't you let this be known a few days sooner? The Senate Journal would, had you done so, certainly have told a different tale. Nobody knows better than the editor of The Index that had the Legislature had the remotest idea that the Buckman bill was a cloak under which the Lake City University might, in its own interest, stab to death the other State schools, the measure would never have rallied to its support a corporal's guard. He knows, too, that had the question of selection of location of the University been left to the Legislature, it would by an overwhelming majority have placed it at Gainesville. But we firmly believe our Lake City contemporary has crowed too soon. We thank him for the candid information that Mr. Buckman's bill was in reality and intent an assault by the Lake City University on her sister institutions; but even he cannot make us believe that Governor Broward was a party to the scheme; and so it may happen that the institution will be "hoist with its own petard," hit over the head with its own club. Governor Broward is a man of inflexible and incorruptible honesty, and will not lend himself to the nefarious schemes of any man or set of men. We believe that he will appoint on the board five honest, intelligent, disinterested men, and that the board after a careful survey of the situation, will locate the University where in their judgment it will be most advantageously situated. Feeling and believing that Gainesville offers these advantages, all we want is a square deal and a fair game; and we have faith in Governor Broward that he will see that we get them. Maybe after all, you whistled before you were out of the woods, Brother Index.

THE JAPANESE.

Since the great victory of Admiral Togo over the Russian fleet, there has been much talk regarding the Japanese and the wonderful fighting qualities they have shown in every engagement since the war in the Far East began.

While Russia has more people and the czar more wealth to prosecute the war, the Russian arms have met defeat on nearly every occasion, even when the chances were in their favor. The Russians have been fighting for the czar and have no homes to defend or honor to maintain. A disolute set of vodka drinkers at the head of their government, to support a cringing ruler whose only aim is to save his own head, it has been simply a demonstration on the part of a despicable bureaucracy.

Japan has advanced within the past few years along the line of civilization, they have an empire with modern ideas, and the people are contented. Their love of country leads them on to the utmost human exertion, and even the coolies have a respect for their sovereign that does not exist in Russia.

Education has done much for Japan, Christianity is doing much for that country every day, and the idea that because they are thus advancing they should not fight is all nonsense. True Christians will stand by their faith, but the loon worshipping the false Christianity of the Russians avails but little.

The right will nearly always prevail, and although the czar has kept his priests busy, it is a time-honored saying that the prayers of the pernicious do not avail much.

The quality of cantaloupes in different portions of Florida is being discussed, and each locality thinks it has the best. This strife for supremacy is all right, as it will arouse every section of the State to produce the best fruit possible, and the best possible to be grown in Florida is as fine as the world can produce. Don't rush your fruit to market in an unripe condition and poorly put-up packages. The farmer who puts good fruit on the market, in neat parcels, always finds a ready sale for everything he grows.

DeFuniak Springs will make an effort to keep her schools up to the high standard they have attained, regardless of State aid. Like Gainesville, DeFuniak Springs has a reputation as an educational town, which they cannot afford to lose. The entire people of Gainesville took a deep interest in the East Florida Seminary, and to lose it after it had been here for upwards of fifty years, without a word against it, but much in its favor, was a direct slap in the face.

A person who is always forgetting will never climb the ladder of renown. No man will ever become a good business man until he learns to break himself of the habit of forgetting. A bad memory of this kind is simply a bad habit, and is an evil that can be overcome, if a sufficient amount of determination is exercised.

Some time ago The Sun had a short comment in regard to the man Neal of West Palm Beach who robbed the grave of a Seminole Indian and took the whole outfit North for an exhibition. He did not take it in the interest of science, the same as college professors kill cats by slow torture. He did it for money—to exhibit the remains at so much per, and now the Indians are going to prosecute him. Grave robbing is a serious offense, and there is a good chance for Mr. Neal having to pay for his ghoulish practice.

Get into the habit of taking a rest at noon, says Medical Talk. Lie down, if only for ten minutes, or five minutes. If you cannot lie down, lean back in a chair and close your eyes. Just forget everything. Rest, relax. Even if you do not sleep, rest. This practice will make you live longer. It will make you healthier while you live. It will probably make people want you to live longer. It will take the tangle out of your nerves, the irritability out of your temper. It will make your eyes brighter, your face fuller.

Yellow Fever Patients Doing Well.
Washington, June 2.—Governor Magoon of the Isthmian canal zone, today cabled the war department that there were now three cases of yellow fever on the isthmus and that all were doing well. The last case is that of William J. Kennedy, an American not an employee of the canal commission, who was taken ill May 24.

You Must Sleep.

If you cannot, it is due to an irritated or congested state of the brain, which will soon develop into nervous prostration.

Nature demands sleep, and it is as important as food; it is a part of her building and sustaining process. This period of unconsciousness relaxes the mental and physical strain, and allows nature to restore exhausted vitality.

Dr. Miles' Nerve brings refreshing sleep, because it soothes the irritation and removes the congestion.

It is also a nerve builder; it nourishes and strengthens every nerve in your body, and creates energy in all the organs.

Nothing will give strength and vitality as surely and quickly as Dr. Miles' Nerve.

"During the past winter I had two attacks of La Grippe which left me very weak, and in bad condition. I was so nervous I could not sleep. My wife, after trying different remedies, went for a doctor. The doctor was out, and a neighbor recommended Dr. Miles' Nerve, and she brought home a bottle. I had not slept for some time, and had terrible pains in my head. After taking a few doses of Nerve the pain was not so severe, and I slept. I am now taking the second bottle, and am very much improved."

HENRY M. SMITH, Underhill, Vt.

Dr. Miles' Nerve is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.
